

ModSafe™ defines  
the standard of excellence  
for storage safety  
and security.

Protect your  
workers,  
equipment and  
customers.

The highest quality **storage unit** available anywhere,  
at an **affordable price.**

Introducing

# ModSafe™

a new generation of  
**portable storage**  
engineered for  
**safety and security.**

The ModSafe Pro is the best choice for applications where security is most important.

The ModSafe HiViz is recommended for high-traffic or heavy equipment locations.

Available in two sizes: 8' x 20' and 8' x 40'

**W**hether your on site storage containers house costly building materials, your valuable power tools or business assets—you know that if they are not in a safe and secure location—you risk expensive project delays, missing critical deadlines, unnecessary crew productivity losses—cutting into project profitability. That's why ModSpace® has invested its engineering resources and project management team experience to create a new generation of portable on site storage.

## Built tough for strength and durability

- **Finally**—a storage container **designed with the environment in mind.** Withstands the elements of rain, wind and sea surge (original ISO certified containers)
- Only the most desirable units are chosen, thoroughly inspected and restored. **ModSafe storage containers look good,** whether on a job site or in a parking lot

## Versatile for any site need

- Steel locking system means **additional security**
- **Tilt bed delivery** for easy placement
- **Two sizes and colors** to choose from depending on your site requirements
- Affordable Damage Waivers and Commercial Liability Insurance available

## Protect your workers, equipment and customers

Not all storage containers are the same—when safety and visibility really matter, ModSafe HiViz model (designed with our **custom HiViz color**) and **Reflexite® V52 diamond-plate conspicuity tape**, reduce site accidents in any lighting conditions.

Rest assured, your site is **as safe as can be** with ModSafe's state-of-the-art storage container.
