

# Personnel Enclosures

**Looking for a quick solution for working space? ModSpace® has the answer.**

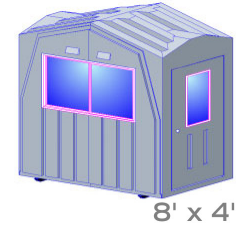

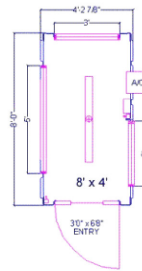

Our pre-engineered, self supporting fiberglass buildings are delivered ready to use, or in unassembled modular sections for the ultimate in budget and design flexibility.

Featuring durable, maintenance-free fiberglass, ModSpace's guard houses are weather, rust, rot, mildew and warp resistant. In addition, they are wind, snow and flame spread rated with self supporting ribbing – which means you won't have to worry about ongoing repairs and deterioration.

**Options include:**

- > 1500 BTU Heater
- > 5000-12000 BTU A/C units
- > Slider window

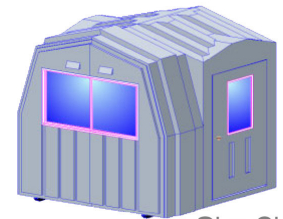

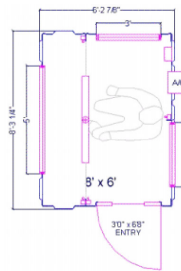

And if you need your building relocated, we've designed for that too. Rely on ModSpace to provide you with the building solution you need, where you need it.
