

# Walls and Partitions

Moveable walls and full height wall partitions are the quick, easy and cost-saving way to maximize office space within your modular building.

Building interior office space within your modular building conserves energy, provides noise-free work areas and allows for better use of space. Plus, simple permitting processes and unlimited floor plan configurations make modular walls and partitions a hassle-free option to expand now and in the future.

Modular walls and inner-office partitions are pre-engineered and prefinished to meet your application needs, making design and installation a breeze. Both offer more privacy than cubicle work-stations and are 100% moveable and re-useable.

Modular walls and office partitions are the perfect solution to your short or long term needs.
