

Company Overview

Your one source for innovative modular buildings

ModSpace was formed in April 2007 following Resun Corporation's acquisition of General Electric Capital Corporation's (GE) North American modular space business. The combination of the two complementary businesses created one of the largest modular building providers in North America.

Today, ModSpace is among the largest global suppliers of permanent modular construction and temporary modular space. Headquartered in Berwyn, PA, ModSpace remains a leading innovator in modular construction. With 40-plus years of experience, and 80 sales and service offices throughout North America the company is consistently offering new products to fulfill emerging needs.

From 8'x20' office trailers and portable storage products delivered right to you, to large-scale multi-story permanent modular construction, ModSpace has a full range of building products to suit almost any professional need. Our experienced project teams are well versed in the many intricacies of working with clients in a number of industries including commercial, construction, education, government, healthcare, industrial/energy and special events.

Lasting success depends on innovation, quality, service and value. ModSpace is built on these four pillars, and we strive every day to use them for the success of our customers.

ModSpace has completed major modular building projects and related services for many prestigious clients including Pfizer, Boeing, Eli Lilly, General Motors, Motorola and the U.S. Army. We combine a wealth of major project management expertise with a process designed to exceed the expectations of the most demanding clients. Our documented project process provides guidelines and requirements for all phases of a project. And our unrivaled customer service ensures that all projects are delivered on time and on budget, and earn our customers' positive endorsement.

Experienced ★ Local ★ Proven

World-class service you can count on, with guaranteed on-time delivery, and competitive pricing from 80 locations across North America.
